

## Destiny – Senior Analytics Engineer / BI Developer

### About the role...

Are you passionate about transforming raw data into actionable insights? Do you thrive in a dynamic environment where you can make a real impact? If so, we want you on our team!

We're eager to welcome junior candidates with lots of potential and ambitious career aspirations. Our ideal candidate will possess a solid foundation in data engineering, data modeling, and analytics.

#### What You'll Do:

- **Design, build, and maintain data models** and transformations using SQL or DBT.
- Develop and manage data pipelines to ensure data quality and accuracy.
- Collaborate with business stakeholders to understand data requirements and **deliver actionable insights**.
- Create and maintain **comprehensive documentation for data models, data flows, and processes**.
- Implement best practices for data governance and data management.
- **Optimize data models** for performance and scalability.
- **Create interactive and insightful dashboards and reports using Power BI**.
- **Stay up-to-date with the latest advancements in data engineering and BI tools**.

### What we're looking for in you...

The ideal candidate will have a strong background in data engineering, data modeling, and analytics, with a specialization in DBT (data build tool) and experience with business intelligence (BI) tools, particularly Power BI.

- **min 5 years** proven experience working with DBT and developing data models.
- Familiarity with Data Vault modeling is a strong plus.
- Strong SQL skills and experience with data warehouses
- Familiarity with data engineering concepts such as ETL, data integration, and data warehousing.
- Excellent problem-solving skills and ability to analyze complex data sets.
- **Proficiency in using Power BI to create reports, dashboards, and visualizations**.

### What we can offer you...

- A challenging job in a fast-growing company where you can also grow yourself (with plenty of room for training)
- A competitive salary, including an eco-friendly company car with fuel/charging card or an interesting flexible mobility budget.
- Electronic meal vouchers, health insurance.
- Flexible working hours, with the possibility of remote work. Because in digitalization, we should set a good

example, right?

- A pleasant working environment in a renewed Dstny house, customized to the wishes of our Destinians.
- A great team of colleagues and wonderful customers.
- A friendly atmosphere with regular fun team-building activities or company events.
- Always fresh soup, fruit, and delicious coffee.

Are you convinced? Don't wait any longer and apply via the form below.
