

Destiny – Cloud Backend Developer

About The Role...

At Dstny, we develop and operate Cloud Services on behalf of Service Providers. Our SmartFlow platform puts humans at the center of the digital collaboration experience. It offers users their own personal cloud to unify all their devices, identities, algorithms, and connect to any Communication Services. Our software is cloud-native and designed to run for millions of users worldwide, making us a leading challenger in Europe.

As a Cloud Backend Developer, you will play a crucial role in developing and maintaining our backend systems. You will work with a team of senior and medior developers in an agile and lean environment, promoting the free and open exchange of ideas. Your responsibilities will include hands-on development, collaborating with cross-functional teams, and continuously improving our products and services.

What we're looking for in you...

- **Educational Background:** Master's or bachelor's degree in computer science.
- **Experience:** Up to 5 years of hands-on experience with development and DevOps technologies.
- **Skills:**
 - Fluent in English; French or Dutch is a plus.
 - Proficiency in Linux and mastery of a programming language.
 - Strong understanding of network operations.
- **Technologies:**
 - Backend: NodeJS, TypeScript, JavaScript, C, Python, SQL.
 - Web Apps: React, HTML/CSS.
 - DevOps: CI/CD on GitLab, Ansible, Jest, RobotFramework, SonarQube, Aikido.
 - Virtualization: LXC, Kubernetes, Docker.
 - Networking: IP network, Firewalling, Nginx, Kong, Keycloak.
 - Monitoring: Prometheus, Grafana, Matomo.

You should be eager to learn from senior colleagues, keep up with technological advancements, and see software development as part of the solution. You should be a problem solver and take pride in delivering exceptional products and services to end-users.

What we can offer you...

- A challenging job in a fast-growing company where you can also grow yourself (with plenty of room for training)
- A competitive salary, including an eco-friendly company car with fuel/charging card or an interesting flexible mobility budget.
- Electronic meal vouchers, health insurance.

- Flexible working hours, with the possibility of remote work. Because in digitalization, we should set a good example, right?
- A pleasant working environment in a renewed Dstny house, customized to the wishes of our Destinians.
- A great team of colleagues and wonderful customers.
- A friendly atmosphere with regular fun team-building activities or company events.
- Always fresh soup, fruit, and delicious coffee.

Are you convinced? Don't wait any longer and apply via the form below.
